

Data Security at DE Data

We keep your data safe

OUR INFRASTRUCTURE

DE Data operates on servers that comply with strict international standards. Servers are committed to transparent and secure handling of all personal data on our network. Their processes have gone through an extensive procedural and legal review to ensure we fully meet the requirements set forth in the EU General Data Protection Regulation (GDPR) legislation. Data centers are also comply with standards: ISO 27001 and PCI-D. Access to infrastructure at DE Data is securely controlled via VPN.

TRAINING

We use the latest technologies and best practices to protect data. Our Data team is trained in data security and are bound by strict confidentiality provisions.

DATA PRIVACY

Our servers on Vultr comply with applicable EU data protection laws.

ADDITIONAL SECURITY OPTIONS

We store passwords in an encrypted way in the database and using unique salts.
